

# Microsoft Computer Science Program

**Kansas State School for the Blind offers an Intro and an Advance Python Computer Science Course tailored for students who are B/VI in partnership with Microsoft Philanthropies TEALS (Technology Education and Literacy in Schools).**

## MORE DETAILS

*The TEALS Program has a ten-year, proven track record of bringing computer science programs to high schools by partnering technology industry professionals with classroom educators to team-teach computer science classes.*

*KSSB and TEALS created this course with students who are blind/low vision in mind, working closely with a community of adults who are B/VI. The class will cover variables, outputs, methods, loops, if/else statements and special topics. We are excited to bring this free, remote class to students who are B/VI, across the country!*

*1<sup>st</sup> 5 KS registrants get Beats headphones!*
